

The walls of the castle are home to so many legends born in the past 140 years. Nothing could make this event more complete, but a carefully selected wine list or cocktail selection. It's your choice whether you complete your dining experiences with the treasures of our country or with the flavours from abroad.

PAINTINGS FROM THE PAST

Choosing our selection of cocktails containing unique creations, the food line is even more prominent: each cocktail is connected to the given course from some common ingredient. Each cocktail will be named after one of Clarisse Schossberger's paintings.

THE BARON'S SOCIETY

We also have surprises for our guests who do not drink alcohol. Our homemade juices and non-alcoholic cocktails complete the gastronomic experience, for which we procure the ingredients directly from the garden of our castle and from local producers in the name of quality and freshness.
